

Roshan Uttangi

Segment Head, Payers

Roshan Uttangi is the head of the Payers segment for the Health Care and Life Sciences (HLS) vertical at Innova Solutions. As a key member of the HLS leadership team he focuses on customer success by leveraging the right combination of digital solutions and engineering skills. Roshan is also responsible for building a strong team to establish Innova Solutions as a market leader in providing best-in-class solutions, services and skills to its customers.

With more than 25 years of experience in successfully building and establishing domain centric organizations and verticalized capabilities, Roshan is responsible for driving profitable growth for Innova Solutions while delivering significant business value to its customers. Roshan has deep global experience in building highly capable delivery teams and robust Payer solutions leveraging his technical and domain skills, and internal and external partnerships. He leverages his experience and industry leading partnerships like AWS, Azure, SFDC, Pega, UiPath to help customers solve critical business challenges.

Prior to joining Innova, Roshan held various strategic leadership roles at multiple system integrators across strategy, business development/expansion and execution. He has built businesses/accounts grounds up and also taken over existing large business areas and grown them multi-fold while ensuring customer and employee satisfaction. He has collaborated with academia, industry leaders and analysts to bring thought leadership and cutting edge solutions internally and for customers.

Roshan now lives near Boston, MA with his wife and two daughters.
