

# Accelerate Sustainability And Environmental Goals With IBM Envizi

As the biggest corporations and governments worldwide accelerate decarbonization commitments amidst increasing scrutiny of Environmental, Social, and Governance (ESG) disclosures, they strive to transform sustainability goals into measurable outcomes. Innova Solutions helps its clients leverage IBM Envizi, the world's most comprehensive data, analytics, and insights platform for Sustainability Solutions.

## What We Offer

ESG data is often stored in various unconnected systems spread across an organization. It could be stored in utility billing systems, spreadsheets on local drives, or on various platforms across multiple locations. To assist in navigating the Sustainability journey, Innova Solutions helps congregate data from various siloed sources.

### We provide our clients with:

An **assessment** to kick-start their ESG journey

Craft a **winning ESG strategy** to provide recommendations

**Implement an ESG reporting system** to meet regulatory requirements and reduce carbon emissions

**Data cleansing, formatting/presentation,** and input query

Support for **platform training and emission factors**

## Value Proposition

Envizi provides ESG and Sustainability support at every stage of the decarbonization journey — from **Emissions Management, ESG Reporting & Performance to Energy Management, and Building Optimization solutions. As a turnkey SaaS Solution,** the Envizi Platform helps save the larger scale, higher cost, and riskier elements of a conventional software implementation project.

### Innova Solutions helps you leverage Envizi to:

#### BUILD DATA FOUNDATION

A single, centralized system of records that offers auditable, financial-grade sustainability data.

#### STREAMLINE REPORTING & DISCLOSURE

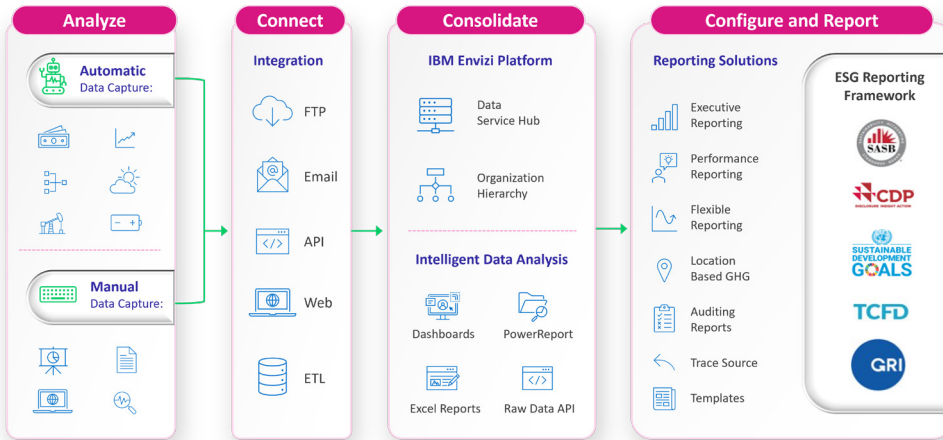

Flexible reporting tools to meet internal and external requirements.

#### ACCELERATE DECARBONIZATION

Unlock insights to determine the fastest and most cost-effective pathway to achieve low-carbon objectives.

# How Envizi Works

## The Envizi Edge

- Automation and consolidation of **500+ data types** and compatibility with major sustainability reporting frameworks
- Easy GHG calculations** (Scope 1 and 2 emissions) and reporting with extensive managed emissions factors and embedded market-based emissions calculations
- Implementation Timeline:** 16-24 weeks from commercial signoffs

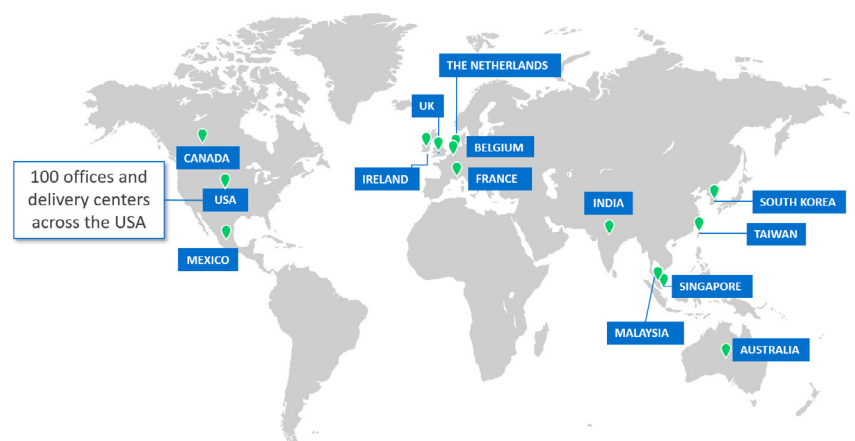

## Why Innova Solutions?

Planning and executing a sustainability journey with a partner like Innova Solutions and the useful insights provided by Envizi equips your organization with the right assets to enhance sustainability performance. With more than **200 IBM projects completed successfully** since 2015, the Innova team has the experience and resources to help you get the most out of your investments in Envizi.

### Innova's partnership with IBM and 3Degrees helps you leverage:

- Industry and technology expertise to address regulatory requirements related to ESG and Sustainability
- 46 years of combined experience in IT & Sustainability
- Global Delivery Capabilities
- Support for third-party verification on methodology
