

Future of Pega Unleash the Power of AWS Cloud

Welcome to the future of Pega!

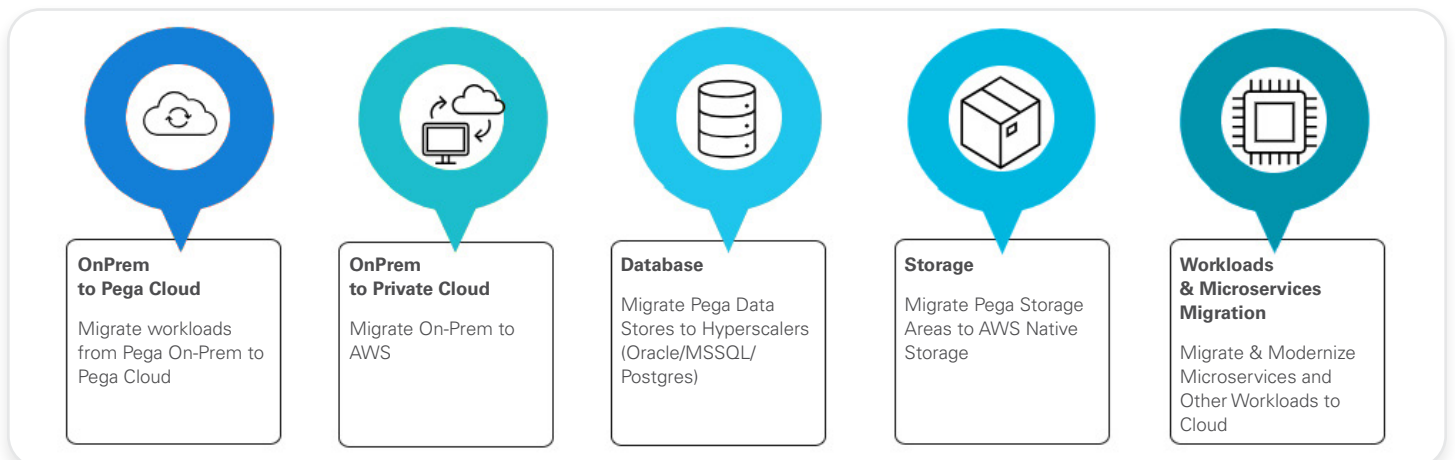

Innova Solutions invites you to a journey that will transform the way you harness the complete potential of your Pega Platform. We understand that staying ahead of the competition in today's fast-paced business landscape necessitates agility, scalability, and innovation. This is where the AWS Cloud comes into the picture.

Modernizing your Pega Platform on AWS Cloud will provide your organization with unparalleled flexibility, scalability, and efficiency. No matter if you are an existing Pega customer or a first-time user, this is your gateway to a world of possibilities. It's time to modernize, optimize, and elevate your Pega experience – the future is here, and it's in the cloud.

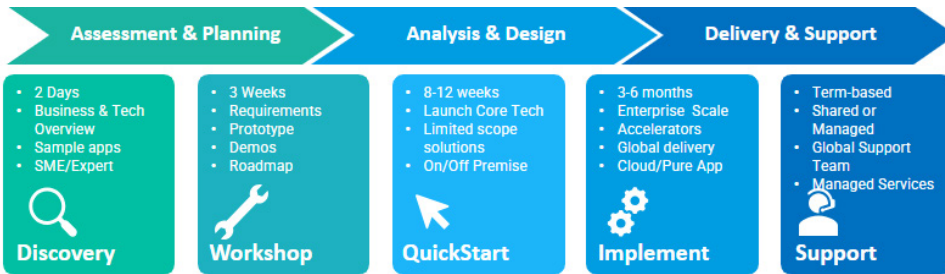

Value Proposition

Pega+ Cloud Modernization Services

Automation Delivery Model

Why Choose Innova Solutions?

Our unique processes, tooling, and automation, together with our industry experience and maturity ensures a faster time to value with reduced risk and cost.

- Expertise across the complete PEGA Platform & PEGA Cloud
- PEGA Competencies

100+ Pega Professionals

- Continuous Learning & Development in PEGA Technologies through internal trainings and certifications and Citizen Development.
- Robust Talent Pool - 500+ Automation Professionals

Key Benefits

Cost Efficiency and Predictability:

Achieve considerable cost savings by moving to the AWS Cloud. A pay-as-you-go model will benefit you by reducing upfront infrastructure costs and only paying for the resources you really use. AWS also offers cost management tools to help you forecast and control your cloud expenditure. Avoid unexpected cost increases and maintain the predictability of your IT budget.

Scalability: Seamlessly scale your Pega platform up or down as per changing business demands. The elastic infrastructure of AWS ensures that you can accommodate increased workloads during peak times without compromising the performance.

Security and Compliance:

The robust security measures provided by AWS and compliance certifications ensures the security of your sensitive data. The presence of features encryption, identity and access management, and audit trails ensure that your Pega applications are in safe hands.

High Availability: Ensure uninterrupted access to your Pega applications with high availability solutions of AWS. Implement redundancy and failover mechanisms to minimize downtime and maintain business continuity.

Environmental Responsibility:

AWS is committed to sustainability, offering a range of eco-friendly initiatives and carbon-neutral data centers. By migrating to AWS, you are contributing to a greener future.
