

# Unlock the Complete Potential of Automation with Innova CloudExpress

To achieve the full potential of AI-powered, end-to-end automation, businesses must consistently utilize proven automation technologies and implement best practices across all their workflows - from providing quicker, digital customer experiences to optimizing internal processes.

IBM Cloud Pak® for Business Automation Software is a comprehensive platform that empowers enterprises to enhance operational efficiency and boost their customer experience by streamlining and automating various processes. With end-to-end business automation, the platform helps clients accelerate growth and performance.

However, IBM Cloud Pak® presents its own set of challenges to the enterprises during its deployment which include:

- Complicated Installation and Configuration processes
- Complex Scaling
- Ensuring High Availability and Disaster Recovery capabilities
- Challenging Resource Management
- Warranting Compatibility and Integration
- Meeting Security and Compliance Requirements

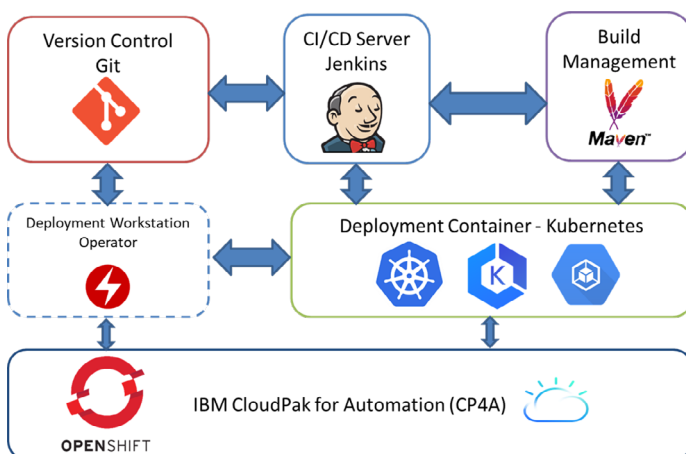

## What We Offer

We, at Innova Solutions, a global IT services provider, help our clients combat the challenges faced during the adoption of IBM Cloud Pak® for Business Automation (CP4BA) Software. **Innova CloudExpress**, an automation tool facilitates the preparation, installation, and configuration of IBM Cloud Pak®

The following unique capabilities of Innova CloudExpress seamlessly mitigate the challenges faced during the deployment of IBM Cloud Pak®:

- Automating the deployment of IBM CP4BA Assets in the Cloud
- Promotion of applications between environments
- Streamlining development of new applications in Cloud
- Asset tracking and management
- Decoupling deployment steps
- Impeccable alignment for automatic updates with IBM's continuous delivery process methodology

## Innova CloudExpress Architecture

- Developers**  
Perform Continuous Integration of IBM Solutions
- IT Administrators**  
Automated deployment of IBM platform
- Build & Release Engineers**  
Automated build and continuous deployment of IBM applications
- Quality Analysts**  
Perform Continuous Testing of IBM applications
- IT Managers**  
Track and monitor IBM platform and applications from a unified interface

# Unique Benefits

The exclusive benefits bestowed upon Innova’s clients while leveraging Innova CloudExpress during the deployment of IBM Cloud Pak® for Business Automation include:

Iterative, incremental, collaborative, rapid and flexible business automation platform, and solution management

Zero additional software cost

Implementation of IBM’s continuous delivery cycle with your existing team

Improved Software Development Lifecycle (SDLC) process

More than 50% reduction in deployment time

## Why Innova Solutions ?

7+

Years of IBM Partnership

200+

IBM Professionals

100+

Client Successes

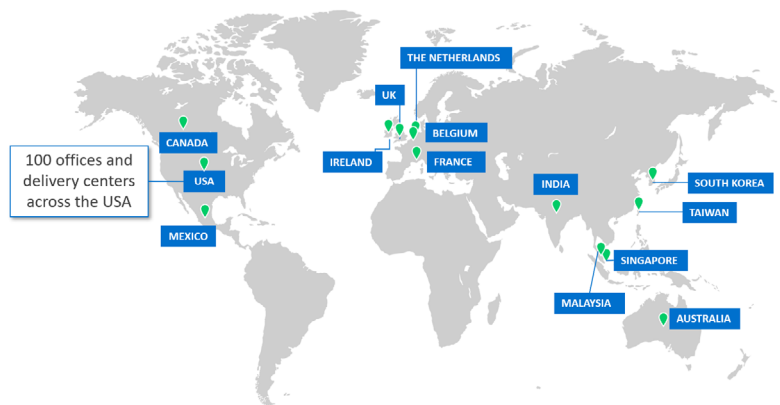

By considering Innova Solutions as a partner during the deployment journey of IBM Cloud Pak® for Business Automation Software, you are choosing an organization who has shared a strategic partnership with IBM since 2015. Therefore, the team at Innova Solutions is equipped with the required experience and resources to help you make the most of your IBM technology investments. Our IBM digital transformation services teams have been enabling clients to modernize their IBM legacy systems and applications globally.

- IBM Center of Excellence and experienced team of engineers and SMEs
- Several enterprise success projects over the past 10+ years
- Best-in-Class cloud modernized technology & business solutions
- Expertise across various IBM Cloud Pak suite of products
- Global delivery and support
- Flexible engagement models adapted to your specific business requirements
